

Under a magical flat-topped mountain, in a land far away, far for some, but not for others, there is a little company waiting to be found. This is a happy place, where only Big People work. By using only the best 100% pure cotton fabrics to be found in the land, they make wonderful clothes for Little People to play in. The Big People workers take great pride in making the clothes for the Little People children, and they are happy to do so, for the company makes sure that they are paid more than that laid down by the rulers of the land. Clothes made with happiness, are worn with happiness! And that always makes for a happy ending!

This may seem like a fairy tale to some, but at Bug Zoo we're turning dreams into reality. Our children's clothing range is manufactured by small, personal, locally owned companies, and whenever you purchase a Bug Zoo garment, you can take pride in the fact that you're making a very real difference to people's lives. Your support not only helps to uplift communities, but also creates employment and supports their livelihoods. Recently, some people have started calling this "fair trade", but at Bug Zoo this is the way it's always been. And with your support of Bug Zoo clothing, the way it always will be.
